

Further information / clarifications

As a result of questions received we provide the additional information in respect of the Consolidation of Laws tender:

Clarifications to RFT

1. The RFT refers to principal legislation at p11 and to both principal and subordinate legislation at p12. The consolidation project should address both issues. We apologise for any confusion.
2. The **A7 form** can be used by tenderers to submit any additional information that they consider appropriate (over and above competencies, skills and experience).
3. In relation to the **A2 form** – Conflict of Interest Declaration, if there is no conflict of interest identified please fill in the form by writing NIL and N/A respectively on the form before declaring it.

1994 Consolidation and Finding Lists

4. Neither the 1994 Consolidation nor the Finding List are official. The finding list has become an essential tool for the Cook Islands legal profession and is heavily relied upon.
5. The 2016 Finding List is available on the PACLII website (www.paclii.org) and can be accessed under Cook Islands Legislation Indexes. We do not yet have a copy of the 2019 finding list but it is anticipated that one will be available at the commencement of the project.

Timeframes for start of phases

6. In respect to anticipated timeframes, we would prefer phase 1 to be completed this year with phase 2 commencing as soon as practicable in 2020.

Local Printing Services

7. There are two local business that provide printing services in the Cook Islands, CIPS Image and Copy Centre and Rarotonga Printing. Parliamentary Services uses CIPS for their layout and printing requirements.
